Finding God's Purpose in Your Life

An inspiring story of listening to God's call and giving back when blessed. – Kirkus Reviews

Millions of Americans enter middle-age or retirement each year and find their lives lacking in purpose. They find themselves asking, "What now? What's next? or What's it all been for?" Philosophers and Academicians have opined on these questions for millennia and their findings and recommendations are multitude and diverse. One lay couple, however, found their answer through an attainable method for finding purpose in their lives that can work for anyone. They listened to God's *whispers!*

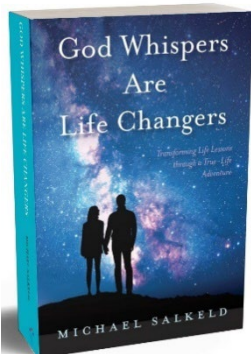

In Michael's new book, *God Whispers Are Life Changers*, he and his wife and partner Delane share the story of how they found their purpose and embarked on an extraordinary adventure by following God's plan for their lives. They describe how, as an ordinary couple, they listened as God's *whispers* led them from joblessness (due to downsizing by their employers), to starting and growing a highly successful business, and along the way the *whispers* led them into ministries that have taken them from working with homeless families, refugees, and underprivileged children in the United States, to rural villagers, widows and orphaned-children halfway around the world in sub-Saharan Africa.

The book's premise is that *no matter where you're at in life, you can fulfill your dreams and find your passion and self-fulfillment by listening to God's whispers, working hard, and seeking and following God's will.* Acknowledging that many people are afraid to step out in faith; afraid of ridicule, afraid of failure, this book is about overcoming such obstacles. This couple's journey started when they were at rock bottom, unemployed and starting over, and led them on a path over the succeeding two decades through ups and downs which included the Great Recession and the COVID-19 Pandemic, taking them from conference rooms, summer camps and poverty-stricken neighborhoods in the United States, to neighborhoods in Third-World cities and villages on the dry, dusty plains of Zambia and Cameroon.

Michael recounts the joys as well as the sorrows of serving those less fortunate and the delight in experiencing the glory of majestic African elephants in the wild and in gazing over the precipice of the thundering Victoria Falls on the Zambezi River, one of the *Seven Wonders of the World*. With stories that are heartwarming, heartbreaking, and inspirational, this book will encourage others to find their purpose in their own lives: their purpose in work, purpose in ministries, and purpose in relationships, through listening to and acting on God's *whispers*.

This book is filled with many captivating vignettes of a faith-filled couple, [and] the adventure that ensued is one for ages! ... You will get to the end and say, "Only God."
